STEP 6: POST CONSISTENTLY: Start with posting once a day, then aim for morning and evening for the most engagement. Once you get in the rhythm of posting, you can use a scheduling app to organize your content and automate posts ex. buffer, later, planoly, etc.

HOT TIPS FOR CREATING MORE ENGAGEMENT AND AUTHENTICALLY GROWING YOUR FOLLOWING:

1. Share an experience that changed the trajectory of your life or business" - when you humanize your business people begin to develop deeper connections with you and develop a sense of trust and like they know you. Being a little vulnerable can really help you gain a loyal and committed following.
2. Create more authentic engagement by asking for people to share their opinion or comment – people love sharing their own opinions, experiences and knowledge – for example where to eat in a new city, which methods parents used, what to watch on Netflix, etc.

Other ways to foster authentic engagement:

- Two choices questions: "Would you rather this/that?"
- Put out a letter or number: "Which is your favorite, A, B, or C?"
- Use an emoji: "Comment with a X if you found this helpful"
- Ask a Yes or No question: "Are you clear on your New Year goals?"
- One word: "What one word would you use to describe...?"
- Scale of 1-10 ("On a scale of 1-10, how excited are you with...?")
- Tag a friend: "Tag someone who needs to see this right now."

3. Use Hashtags – Make sure you use all 30 hashtags in your first comment to attract new fans.
4. Respond in a heart-felt and genuine way to any comments or messages, be sure to like everyone's comment that leaves a comment and get back to people personally.
5. Add your location – tag your location in your instagram posts (even if it's just your business location), event or geographic area. This can boost your engagement dramatically!
6. Grab your IC's attention in the first 150 characters by asking a question or stating something intriguing. Ex. Ladies, am I alone in this? Can I get your opinion on this? I know you might hate me for saying this but... Can I get real with you for a second?
7. Include a call-to-action - inspire people to click your link, tag a friend, leave a comment, repost your content. NINJA TIP: Since you only get one clickable link on instagram – the one in your bio, use a service like LinkTree to maximize that to several links you can redirect your ideal client to.
